

New UW Cybersecurity Training, Mandatory for Benefited Employees

A new mandatory training for benefited employees has been posted in HCM's Oracle Learn Center. In a continuing effort to increase cybersecurity awareness and safety on campus, *UW CyberSecurity 2022* examines current cybersecurity trends and what we can do to reduce the risk of cyberattacks at the University of Wyoming. The training takes approximately 30-minutes and must be completed by benefited employees by the end of the calendar year (December 31, 2022).

To complete the training, use the link provided below to access the course page, then click on the Enroll button. Once enrolled, click on Launch next to the course title to get started. Please direct any technical issues to the [IT Helpdesk](#).
