

As we welcome spring and the changes and new growth it brings, many of us are also thinking about making some changes and growing certain facets of our own lives. With that in mind, we thought now would be a good time to let you know about an educational opportunity available through the UWSOP that might be of interest to you.

Hopefully you are aware that the UWSOP is extremely grateful for all you do to help our pharmacy students prepare for the workplace. While you are helping them, the UWSOP can serve as a resource to **you** to help accelerate your career or further develop your skills with a MS in Health Services Administration (MS HSA). This is an online program that is designed to support working professionals in furthering their leadership and administration career goals.

To date the program has worked with healthcare professionals from many disciplines including pharmacists, nurses, physicians, social workers, physician assistants, and others from multiple working environments. All work together in courses designed to bring up to date information leveraging critical thinking to review and analyze today's issues. Over 200 students have graduated this program since its inception in 2016.

Program participants complete a two year part-time online program with support from industry leading professionals across the US while gaining experience in real-world seminars. The MS HSA program offers 18 specialty tracks under two umbrella groups: Health Institution Leadership and Biopharmaceutical Regulatory Compliance.

Applications are accepted year-round and the program is currently reviewing applications for the Fall 2022 semester. If you have questions or would like to speak to somebody about the program, please contact Elliott Sogol at: esogol@uwyo.edu or Jen Paintin at: jpaintin@uwyo.edu. Additional information may be found at: <https://www.uwyohealthadminms.org/>.

Lastly, some of you might be interesting in attending a CE conference hosted by the UWSOP that will be held in Laramie, WY on July 16th and 17th. It will focus on legal aspects in pharmacy. More information about the conference can be found at: <http://uwyo-pharmacy-conference.com/>.

As always, thank you for all that you do for our students and the School. We hope the change in season brings renewed energy and passion for all the things you enjoy and wish to pursue in the coming months.

Best regards,

The University of Wyoming Office of Experiential Education
