Financial Affairs

Project End Dates in WyoCloud PPM

This notification is to provide guidance on project end dates for sponsored projects. The Office of Sponsored Programs (OSP) recommends using InfoEd for the official project end date for sponsored projects instead of WyoCloud Project Portfolio Management (PPM).

Occasionally OSP has to extend the end date of a project in WyoCloud PPM to allow payroll transactions to process. Once the end date is extended, WyoCloud PPM does not allow for the project end date to be reversed to the original end date. Therefore, users should not consider the end date in WyoCloud PPM the official end date of the project.

Questions regarding this guidance should be addressed to Kim Puls, Interim Manager, Costing and Reporting, Office of Sponsored Programs.
