WYOCLOUD PLANNING AND BUDGETING

Good Afternoon,

The Budget Office sent the attached FY20 BOT Report to the Board of Trustees last month.

A new report is available in Planning and Budgeting for your review in preparation for the board meetings. The new report aligns with the attached report but allows the user to select which organization and level they would like to review.

To navigate:
Planning and Budgeting
Reports
Home – 1 WyoCloud Planning & Budgeting Reports – Budget Reports – *BOT Budget Review Report Entity 10*

Once you have selected the report format you will be prompted to enter the organization you would like to review. The report will also display all children of the selected org. For example if I selected O_E2100 the report would return O_E2100, O_21001, O_21002 and O_21003.

Thank you,
The Budget Office
